Wisconsin Facts

Wisconsin’s Financial Capability
- Living paycheck-to-paycheck - 53% of Wisconsin residents spend equal to or more than their income
- “Rainy day fund” - 46% of residents do not have emergency money of three months of income
- Medical debt – 23% of state residents have overdue medical bills up from 21% in 2015
- Borrowing - 23% of state residents have engaged in some form of high-cost, non-bank borrowing during the last five years, such as payday lending or advances on tax refunds
- Financial literacy - On a test of 5 questions, 60% of residents were unable to answer more than 3 questions correctly

USA’s Financial Literacy Rank Internationally
- More than one in six students in the United States—17.8% compared with 15.3% across other countries – does not reach the baseline level of proficiency in financial literacy. The United States performs around the average ranking somewhere between 8 and 12 among 18 studied counties.

Recent high school grads lack financial capability
- Only 24% of Millennials demonstrated basic financial knowledge, nearly 30% are overdrawing checking accounts and 81% have at least one long-term loan.*

Required personal finance course
- 30% of Wisconsin school districts do not have a one semester requirement. Mandated financial education in high school increases financial knowledge later in life including improved retirement planning—a powerful proxy for wealth building. Student credit scores are 8 to 17 points higher by age 22.  

Teachers
- While 89 percent of K-12 teachers agree that students should either take a financial education course or pass a competency test for high school graduation, relatively few teachers (20%) believe they are adequately prepared to teach personal finance topics.

Academic and Career Readiness
- Choosing the right path after high school is increasingly crucial. Student loan debt now surpasses debt on credit cards and auto loans—the largest form of consumer debt outside of mortgages (WI ave. 32K).

Financial Literacy in the Work Place
- 59% Wisconsin employers provide some financial education 
  Provider: 70% use outside provider 
  Top topic taught: “investing for retirement” 
  Reason: 70% perk improving morale and loyalty, 30% employee demand 
- 41% provided no financial education because it was not seen as a benefit and concerns about time
